PALM SUNDAY ALMOST HERE

Holy Week Begins on the
day After Tomorrow, Sun-
day, April 16.

Sunday to be Observed at Cath-
olic Church—Next Wednesday
a Notable Day.

Next Sunday is Palm Sunday,
which is the first day of Holy Week,
which ends with Easter Sunday,
April 23d. St. Mary's Catholic church
will observe Palm Sunday and Holy
week as well as Easter with special
music and services.

Wednesday in Holy Week is another
notable day in the Catholic calendar.
The office of Tenebrae is celebrated.
A triangular candlestick upon which
are fifteen candles, corresponding to
the number of psalms recited, is
placed at the epistle side of the altar.
After each psalm one of the candles
is extinguished, and after the benedictus,
the candle on the top is alone not
extinguished, but is removed and
concealed behind the altar, to be brought
out at the end of the service. The
custom of concealing the 1st and most
elevated candle, and of bringing it
forward, burning at the end of the
service, is in allusion to the death and
resurrection of Christ, whose light is
represented by burning tapers.

Maundy Thursday, or Holy Thurs-
day is a feast in memory of the Lord's
Last Supper, when He instituted the
Holy Eucharist and washed His disci-
ples' feet. During Mass on this day
the bishop solemnly blesses the holy
oils used in administration of the
sacraments. There is only one Mass
on this day in each church. The priest
consecrates two hosts, one of which
he receives and the other is placed in
a chalice and carried in solemn pro-
cession to an altar prepared for its
reception, called "The Altar of Re-
pose," or "The Sepulcher." Here it
remains until Good Friday when it is
taken back to the high altar.

On Good Friday the services in the
church are of the same solemn char-
acter as on the preceding day. At
Rome, in the afternoon, the last
miserere is chanted in the Sistine
chapel, after which the Pope, cardinals
and other clergy proceed through a
covered passage to St. Peter's in or-
der to venerate the true cross, the
lance and other relics which are shown
from the balcony above the statue of
St. Veronica.

Holy Saturday is the day before
Easter Sunday. On this day the new
fire, the paschal candle and the bap-
tismal font are blessed in all the
churches.

GREENSBURG HAS A SPARK OF HOPE

Management Here May Take the
Rushville Team to
Greensburg.

James Geraghty, president of the
Rushville base ball association, an-
nounced yesterday that, should the
efforts now being made to install a
ball team in Greensburg fail, he
would, in order to give the fans in
that city a taste of the sport again
this year, take the local team to that
city at least once or twice each week
for week day games with strong
semi-professional teams. This would
be a good thing for Greensburg, but
it would mean that the local club
would play ball practically every day
in the week.

Mr. Geraghty's plan, as he announ-
ced it would be to play a game with a
club here on one day and on the next
take both clubs to Greensburg for a
game.

The prospects for a Greensburg ball
team, however, are not yet dead. The
Daily News of that city says:

The item in yesterday's News con-
cerning the prospects for a ball team
here this season, has struck a spark of
hope. For the past several weeks,
Mr. Miller has been taking the News
to keep posted on the situation here.

A telegram, undoubtedly prompted
by the article in yesterday's issue, was
received at this office this afternoon,
which is as follows:

"Will be at Greensburg with ten
days, if possible. Letter will follow.
J. G. Miller."

From the telegram we infer that
Mr. Miller will renew his efforts to
organize the best ball team in the
State, in Greensburg.

MORTGAGE EXEMPTIONS

Must be Filed With the Auditor
Not Later Than April
Twenty-ninth.

File your mortgage exemptions
within the next two weeks. The
mortgage exemptions must be filed
with Auditor Winship on or before
April 29th, April 30th being Sunday,
which otherwise would be the last
day for filing mortgage exemptions.

Thus far only one-third, about 300,
out of 600 have filed exemption ap-
plications, with Auditor Winship. Those
who have mortgages on their property
are entitled to this exemption by
filing their petition and statement.
The number already filed is less than
the average for this time and will not
be larger than in previous years.

RUBY GOES TO ROCK ISLAND

Rushville Loses Her Star Twirler
Who Was Compelled to Keep
His Contract.

Jesse Ruby, the star twirler and all
around ball player, left at 11:46 last
night for Rock Island, Ill., in company
with J. J. Lavelle, the Rock Island
base ball magnate, who came here after
him.

Ruby did not want to go to Rock Is-
land, and amid a shower of telegrams
and letters ordering him to report
stoutly refused to go. Had he re-
mained in this city his chances of
making big league company would
have been spoiled, but he would have
stayed had President Geraghty said
the word. Mr. Geraghty would not
stand in his way and Ruby decided to
go.

Mr. Lavelle informed the Republi-
can last night that Ruby had lots of
friends at Rock Island that he was
very popular there and that the fans
were anxious for him to play there.

Mr. Lavelle is connected with the
Rock Island Argus, a daily newspaper
there, and is one of those financially
interested in the Rock Island team.
Ruby will be used as a utility man
and outfielder, and will receive \$135
per month.

The local management is making a
strong effort to secure "Dusty" Koons,
who is under contract with an Ameri-
can Association club, but refuses to
play. Koons is now pitching for
Anderson, but has written that he
would like to play here. If he cannot
be secured, Bob Strong, of the Nash-
ville, Tenn., club, or Roy Youngblood,
of Sidney, Ill., will come here.

There is a rumor, unconfirmed, that
Pruitt has returned to Osgood from
Waco, Texas. The local management
will investigate.

Clen Miller will be clerk at the
Windsor, succeeding Ruby.

FEAR DISEASE MAY SPREAD

Cerebro Spinal Meningitis is Now
Epidemic East—Health Au-
thorities Alarmed.

Indiana health authorities are
alarmed over the epidemic of "deadly
cerebro-spinal meningitis" which is
raging in the East. Starting in New York
City, where the death rate has been
appalling, the epidemic has now
spread to other cities within a radius
of about 200 miles. Philadelphia is
developing what appears to be an epi-
demic of the disease.

In New York City the disease has
raged practically unabated for many
weeks. There the situation is so
startling that provision has been made
for commission to study the means of
the transmission of the disease there,
and to try to stamp it out. It is
known that germs causing the disease
may be carried in spittle. A new
theory has been presented by an emi-
nent New York expert, who believes
that the disease may be communicated
by fleas.

If the theory of the flea infection
is substantiated it is probable that
there will be a scientific flea extermin-
ating expedition in New York and
other cities in the East, such as there
has been against the mosquito in the
South because the mosquito was
charged with carrying yellow fever.

REQUISITION NOT HONORED

Governor of Colorado Refuses
Official Request of Gov-
ernor Hanly.

Wayne Has Had a Strenuous Ex-
perience Since His Parole
Two Years Ago.

Indianapolis, April 14.—Word has
been received at the governor's office
that Governor McDonald of Colorado
has refused to honor the requisition
papers that Governor Hanly had is-
sued for the return to this state of
Charles S. Wynne, who is wanted in
Indiana for the violation of his parole.

Wynne was paroled in 1903 from the
reformatory, where he had been sent
for stealing a horse and buggy in
Henry county. He is said to have vi-
olated the conditions of the parole, and
the requisition was issued that he
might be returned to the reformatory.
It is understood that the requisition
was refused because of some techni-
cal deficiency. From the story that
is sent out from Denver, Col., it ap-
pears that after being paroled from
the reformatory, Wynne was incarcerated
in the Illinois state prison at Joliet,
from which he was pardoned that he
might stand trial on the charge of
murdering two policemen in Denver.
On this charge he seems to have
been acquitted recently, and the In-
diana authorities, contending that
he violated his parole by the offense
for which he was incarcerated at Joliet,
seek to have him returned.

of the Ananias club, of which he is
"president," this afternoon at the
Sheriff's office, declared that he had

miles from West Baden, and Mr.
Brock attributes his recovery to the
drinking water there.

ONE MAY LIVE AT CONNERSVILLE

Brookville Paper Thinks One of
the Blooming Grove Robbers
Was from That City.

Concerning the burglary at Bloom-
ing Grove last week the Brookville
American has the following to say of
the statement by the Cincinnati En-
quirer:

The statement made in Saturday's
Enquirer, that the persons who com-
mitted the Blooming Grove robbery
were known by detectives and one
lived at Connersville and the other
two here, may yet be confirmed, inas-
much as it is said that the suspects
here are being closely watched as well
as the one at Connersville. Any at-
tempt to leave will precipitate an ar-
rest. From the same source it is
learned that the one who did the
shooting lives here.

RAILROAD NOTES

C. H. Walker, section foreman on
the Big Four has a badly mashed foot
the result of getting it caught under
a car wheel.

The west-bound C. H. & D. passen-
ger train due here at 11:46 p. m., cer-
tainly had its troubles Wednesday
night. As the train left Cincinnati
one of the coaches caught fire and
considerable trouble and delay was
encountered in getting the blaze ex-
tinguished. Near Hamilton the en-
gine broke down, and after some de-
lay the train came on as far as the
fair grounds, east of this city. At
that point the engine again broke
loose. The train did not get out of
this city until 3 a. m. Thursday morn-
ing.

PRETENDED DEMOCRAT

That is What Jerome Calls
Him and Gives the
Reason Why.

The Secret of President Roose-
velt's Success and Influence
Among the People.

Syracuse, N. Y., April 14.—District
Attorney William Travers Jerome of
New York was the guest of honor at
the annual banquet of the chamber
of commerce last night. In the course
of his speech on "Idealism in Busi-
ness," he declared that the municipal
question was going to be the deciding
factor in state and national life. He
added that the corrupt political life
was but the reflection of the public
sentiment. "Too often," said he, "the
idea of business is simply to make
money. The joy of doing should be
the inspiring thought. The statesman
should believe in the people. I have
called Thomas Jefferson a fakir, and
I repeat it. He was a fakir because he
pretended to be a Democrat when in
reality he did not believe in the peo-
ple. The political machinery of to-
day makes a public career almost im-
possible unless you bow to the will
of a political boss. There are no big-
ger cowards in the world than politi-
cians. You can take them by the
throat and shake them until their
teeth rattle if you only have the nerve.
Abstract principle has no effect un-
less it is embodied in a living being.
The success of President Roosevelt
and the secret of his influence on the
community is this principle. The
most of us cannot show our valor on
San Juan hill, but we can live a life
of sacrifice for the public good."

JOHN LEVI TAKES HIS OWN LIFE

Former Rushville Man Killed
Himself at Switz City This
Morning.

A telegram was received here this
afternoon from Mrs. John Levi, at
Switz City, announcing that her hus-
band had taken his own life at his
home in that city this morning. The
message did not say how or why the
deed was done.

John Levi was a brother of Wash-
Levi, of this city, and was a Rush-
ville boy. He is well known here.
His relatives here attribute the deed
to his business cares inasmuch as he
had lost heavily in some of his recent
ventures.

If there is no more frosts there will
be home grown peas on the local mar-
ket within a very short time. Reports
are to the effect that the peas are
further advanced this year than they
have been for several years.

Strawberries are on the local mar-
kets and can now be had for forty
cents a quart. The price will remain
about that high until some time later.

HORSE NOTES

Riley Nebro, formerly of Brookville,
a trainer of note, is now employed at
Riverside Park.

Horrie Brooks is assisting Fred
Hilligoss in training his string of
prospects at Riverside Park.

William Wilson has taken his Patch-
en Boy colts to Indianapolis, where
he will train them at the State Fair
grounds this spring.

George Weeks has entered his
promising filly, Bessie V., (by Roy
Wilkes, dam Venie by Haw Patch) in
the Iriquois Hotel Stake race, at
Buffalo.

Western Horseman: Float Jolly, of
Tipton, Ind., last week bought at
Rushville, Ind., for a New York party,
a very promising green trotting mare,
and at once shipped her East.

Dick Wilson, it is said, will have
out the "swellest" outfit this year
ever seen in the Grand Circuit. Mr.
Sherman having given Dick a "loose
rein" in the matter of "laying in
supplies."

The dam of Frank Wilson, 2:06½,
owned by Fred Hilligoss, has foaled a
fine bay filly by Hal Dillard. The
dam of Lady Bellbrook, 2:10½, and
a full sister to Lady Bellbrook, hav-
ing been booked to Hal Dillard.

Western Horseman: J. T. Thrall,
Manilla, Ind., writes that Von Posey,
dam by Western Horseman (3), 2:24½,
has a fine Patchen Boy filly foal. She
will be bred to Payline and Patchen
Boy youngsters are all doing fine.

The American Horse Breeder makes
the following apt remarks: "There is
one sure way to prevent horses that
have taken fast records from being
started in slow classes—brand them
under 'the mane.' This seems to be a
practical way to handle the ringer
question."

The farmers of this county have been
rapidly improving their stock during
the last few years. Especially is
this true in regard to horses. Old
Rush now produces the best young
horses of any county in the State, and
they are continually breeding up, get-
ting better and more of them.

Shelbyville Republican: Edward
L. Shumaker, of Rushville, has
brought his string of six horses to
Shelbyville fair grounds where they
will be trained during the coming
season. In the string is "Lady Veatch,"
a good "stepper" which has been in
several races at the Shelby county
fairs.

The demand for horses for farm
purposes has not often been as active
as it is this spring in this section of
the State. There was some offerings,
but the supply is far short of the de-
mand. There are plenty of scrubby,
light-weight horses in the county,
but the supply of well-bred draft
horses, weighing more than 1400
pounds for sale is extremely limited.

Harrie Jones made five additions to
his stable last week in the following
horses: George S., 2:08½, by General
Wilkes from Owensboro, Ky.; Effie
Afton, 2:13½, from Jacksonville, Ill.;
Westell, 2:17½, by Drexell, and Bar-
on Wilton, a green trotter, by Wilton,
that went a mile in 2:22 last season.
The last two named are from Cincin-
nati, O., and a green pacer, by Strath-
berry, 2:04½, is from Alexandria,
Ind.

IMPROVE YOUR CORN

A Valuable Paper on Corn
Improvement in Indiana
and How to Plant It.

By W. T. Wyancko, of the Purdue
University Agricultural Ex-
periment Station.

It is gratifying to note on every
hand that the farmers of Indiana are
rapidly taking a great interest in the
improvement of their corn. Questions
are constantly being asked as to
methods of improvement and where
good seed of improved varieties can be
secured. That many farmers are now
willing to pay good prices for good
seed corn is a healthy sign.

Corn is undoubtedly the king of
grain crops throughout Indiana. The
crop of the year 1904, for this State,
amounted to the magnificent total of
143,396,852 bushels, representing a
money value of over \$60,000,000 for the
grain alone. Over 4,000,000 acres of
the best lands in the State are annu-
ally planted to corn. The average pro-
duction during the last ten years on
this area has been about 33 bushels
per acre. This is very much smaller
than it should be. Experiments now
in progress show that the average
yield might easily be very materially
increased by a combination of more
careful seed selection, better cultural
methods, and proper attention to the
maintenance and improvement of the
fertility of the soil.

The prospects for improvement are
very bright. Our farmers are awaken-
ing to a belief in the possibilities and
are beginning to make an effort in the
right direction. We could point to
quite a number of farmers in the State,
working on average soils, who are pro-
ducing 60 to 75 bushels per acre every
year, and their methods are not yet by
any means as good as they might be.
Large areas of better lands are capable
of producing, and some are producing
even with comparatively poor methods,
80 to 100 bushels per acre.

There is no crop that is more re-
sponsive to more careful selection of
seed and better method of treatment
generally than is corn. A difference
of five to ten bushels per acre in pro-
ductiveness is easily made, and the
crop of the State could be easily in-
creased by several millions of bushels
in a single season without increasing
the acreage, and at practically no
greater expense. Our conditions for
corn production as to soil and climate
are, for the most part, excellent and
there is no adequate excuse for the
low average yields. If every farmer
would make a little effort, wonderful
improvements could be quickly pro-
duced. There is little danger of
over production. The markets of the
world are large and the uses to which
corn are put are constantly growing
and increasing.

As a rule corn should be planted in
hills, or check-rowed, if only for the
reason that it may be better tended by
cultivating both ways. No definite
rule can be laid down as to the
thickness of planting. The best dis-
tance between rows and the number of
stalks per hill, or the distance between
stalks in drills, will vary with the
size of the variety and the character
of the soil and climate. Under aver-
age conditions, with an average sized
variety, about ten thousand stalks per
acre will usually give the best results.
The richer the soil the thicker may be
the planting and the larger the variety
the thinner it should be. The best
thickness must be determined by each
farmer for himself.

The ground should be deeply and
finely prepared before planting. No
amount of cultivation after planting
can make up for a poorly prepared
seed-bed. Cultivation should be
thorough from the beginning of
growth until the tassels appear, and
frequent enough to keep a clean, fine
loose mulch of earth, two to three
inches in depth, on the surface through-
out the season. Before he corn is
large enough for the ordinary cultiva-
tor a light harrow or weeder, which
will break any crust that may have
formed and kill small weeds, should
be used. The first and second times
over with the regular cultivator should
generally be deep, but subsequent cul-
tivations must be shallow so as not to
disturb the roots. It should never be
necessary to use a large shovelled cul-
tivator. The small shovel stirs the
ground more completely and leaves it
more level, causing less evaporation
of moisture. After the corn is too
high for the two-horse cultivator a
one-horse implement should be used.
The corn field should never be "laid
by" before the tassels appear.

HIGH STANDARD MAINTAINED

Governor Hanly Shows Himself Favorable to Local Civil Service.

Indianapolis, Ind., April 14.—Before Governor Hanly was inaugurated he stated in an interview that no employee of the state would be removed from office by him except for cause. It was supposed that he meant it to apply to the employees of the state institutions but he seems to be determined to reappoint most of the men who served under Governor Durbin. Colonel Huffman, state house custodian, is the only one at the capital not reappointed but the governor asked him to step aside that he might reward O. A. Baker of Shoals one of his close friends. It is supposed now that none of the hospital superintendents or heads of other state institutions will be molested. The action of the governor practically amounts to extending civil service over the institutions but inasmuch as they are now at a higher standard than ever before the public will probably be pleased that there are to be no removals. Of course there are many politicians who would like a return to the spoils system but they will hardly get any encouragement from the present administration.

It is not probable that either of the old parties will organize for the opening of the local campaign before the first of June. There is considerable talk, of course, about the organization but most of it originates in the newspapers. So far as the party leaders are concerned they are not making much fuss about matters. On the contrary the chairmen of both committees seem very anxious for a short campaign to begin about the middle or latter part of August. Neither Chairman Logsdon of the Republican organization or Chairman Keach of the Democratic side will be candidates for re-election. There are several prospective candidates who would like to succeed them but none have made formal announcement. It is not likely that the campaign will be as hot as it was two years ago when it was a record breaker, but it promises to be a very interesting proposition. It looks very much now as if ex-Mayor Bookwalter will again head the Republican ticket. Many members of his own party don't want him but there is no candidate in sight who seems to have a chance of beating him out. The Twelfth ward has already endorsed him which is a good start—at least better than any other prospective candidate has. Holtzman will again head the Democratic ticket and as George Hitz again proposes to make the race as an independent candidate the line up so far as the parties are concerned will be the same as it was two years ago. Bookwalter is confident that with another chance he can win.

The list of recommendations for the first, second and third class postmasters of the Third and Fourth districts was given out today by local representatives of Senators Hemenway and Beveridge. Senator Hemenway made recommendations for the Third and Senator Beveridge for the Fourth. The list follows: Third district, Charlestown, J. W. Morrow; Jeffersonville, J. R. Lancaster; Huntington, Frank Duffendach; Jasper, Winfield S. Hunter; New Albany, Robert W. Morris; Corydon, C. H. Reader; French Lick, Rolla V. Claxton; Orleans, Fred Kimbley; Paoli, E. L. Troop; Cannelton, C. T. Miller; Tell City, Charles Fricke; Scottsburg, John McCarty; Salem, Lewis Dennis; Fourth District, Aurora, William F. Coates; Ellettsburg, Walter Noble; Franklin, Harry J. Martin; Greenwood, John W. Henderson; Hope, Herman Miller; Lawrenceburg, Ezra Hayes; Madison, Marcus Sulzer; North Vernon, J. S. Smith; Seymour, William P. Masters; Vevay, William O. Protsman. The only postmasters reappointed in the Third are Morris, Kimbley, Miller and Dennis; in the Fourth, Martin, Henderson, Miller, Smith, Masters and Protsman. Lancaster at Jeffersonville, succeeded Newton Myers a well known party leader who has held office eight years in the face of the bitterest kind of factional strife.

Another important step in the development of the interurban business of Indiana is about to be witnessed here in the erection of a union freight station. When the Indianapolis Traction and Terminal company announced that it would build a \$1,000,000 passenger station for interurbans it was hailed as a leader in the interurban movement but it is now about to undertake plans for further perfecting the business here. The local freight business of the interurbans has become such an important feature that better facilities are necessary. The union station is to be located on the same block with the passenger station. A part of it will occupy the site of the old Thos. A. Hendricks' homestead directly across from the northeast corner of the state house. It will cost in the neighborhood of \$50,000 and will probably be completed within the next six months as the company has an agreement with the city to have it ready for use by the end of this year.

FIXING FOR SIEGE

Russians at Vladivostok Will Profit by the Lesson of Port Arthur.

EQUIPPING FORTRESS

One Hundred Thousand Men and Five Hundred Guns Will Oppose the Japanese Legions.

Garrison Being Strengthened So It Will Be Capable of Withstanding Siege.

Tokio, April 14.—It is reported here that the Russians are continually reinforcing the garrison at Vladivostok and that the work of strengthening the fortress is progressing constantly. It is said that the plans of the Russians contemplate a garrison numbering one hundred thousand men with five hundred guns. Many additional batteries, redoubts, barriers and pits are in course of construction and enormous stores of ammunition are being accumulated. The Russians, it is said, hope to so equip the fortress that it will be capable of withstanding a siege.

AN IMPERIAL RESCRIPT

Peasants May Be Given Some Measure of Relief.

St. Petersburg, April 14.—An imperial rescript addressed to the minister of the interior creates a special commission under his presidency to discuss questions relating to peasant tenure of land, which is described by the rescript as the main foundation of national welfare. Measures will be elaborated, first, to afford peasants better means of working their lands to good advantage; second, to permit emigration between districts, helping peasants to increase their holdings through the medium of a peasant's bank, and third, to devise measures for fixing the boundaries of all holdings in order to show their inviolability and to instill more conscientious views on the subject of private property.

Voice of Peace Is Stilled.

St. Petersburg, April 14.—The news of the northward movement of Admiral Rojestvensky's squadron, and his evident intention to accept battle whenever Admiral Togo chooses to offer it has for the present stilled all activities in the direction of peace, and the foreign dispatches relating to the voyage of the squadron are followed with the most intense interest. The admiralty volunteers no information regarding Rojestvensky's plans.

A Clue to Rojestvensky.

Saigon, Indo-China, April 14.—Rojestvensky's hospital ship arrived here last night to take on board provisions, coal and medicines. It will leave today to rejoin the main squadron.

May Go to Australia.

Manila, April 14.—Governor General Northcote of the commonwealth of Australia, will, it is understood, invite Secretary of War Taft and party to visit Australia during the party's forthcoming visit to the Philippines. The commonwealth of Australia will defray the entire expenses, it is said. The American chamber of commerce of Manila is preparing to entertain Secretary Taft and party on an extensive scale during their stay in Manila.

The New York Meeting.

New York, April 14.—Seven hundred Democrats attended the Jefferson Day banquet of the Democratic club of New York at the Waldorf-Astoria last night. There were present many men of national reputation, and chief among these was ex-Judge Alton B. Parker, Democratic nominee for president last November. In the banquet room portraits of Jefferson were conspicuous. In addition to Mr. Parker the speakers were United States Senator Newlands of Nevada, Mayor McClellan of New York, Congressman Henry T. Rainey of Illinois, J. J. Will of Alabama, and John W. Kern of Indiana.

Sidestepped the Issue.

Indianapolis, Ind., April 14.—T. Taggart, chairman of the Democratic national committee, did not grace either of the big Jefferson day banquet festival boards last night. He was invited to the function at New York and Chicago and advertised as one of the features. There was much curiosity as to which one he would attend. If he accepted the one to go to New York it would have been said that he still clings to the eastern wing and if he had gone to Chicago it would have been said that he had cast his lot with Bryan. Taggart, with his usual forethought, sidestepped both banquets and went to French Lick to look after his interests.

HARD LINES FOR BRUIN

Big Bears Being Tagged Pending the President's Arrival.

Newcastle, Col., April 14.—There has been a fresh snowfall in this region and the roads to Camp Roosevelt are impassable. By telephone, however, it is learned that the men and animals in camp are suffering no hardships and John Goff says that unless more snow falls everything will be in good order when the president arrives. There will be no dearth of game for President Roosevelt. He will have all the bears he wants, and he can choose his own methods. He may chase with the dogs, beat through the district with twenty-five men, or personally track and kill at close quarters. Four bears have already been located. Trappers are following the tracks of half a dozen others, and by the time the presidential party arrives the list of fifteen or twenty bears probably will be known.

THE CHICAGO STRIKE

Police Compelled to Use Clubs on the Disturbers.

Chicago, April 14.—Mayor Edward F. Dunne is endeavoring to effect peace between the contending sides in the present labor troubles in Chicago, but after several conferences with the labor leaders and representatives of the employers, the situation is unchanged. Mayor Dunne, however, is more hopeful of peace as the result of his efforts, and the peace negotiations will be continued with the hope that the barrier now preventing a settlement will be removed and that the two sides to the controversy will agree to confer together and accept the intervention of Mayor Dunne. The labor leaders declare that they are willing to meet the employers, but the latter decline the proposed conference.

While the peace negotiations are in progress Montgomery Ward & Co. continue to make deliveries with non-union teamsters. The service is interrupted, however, by the strikers and their sympathizers, who block the streets, making it almost an impossibility for the caravans under the protection of platoons of police to pass through the streets. In several instances the crowds have become so demonstrative that it was necessary for the police to use their clubs and several of the disturbers were hurt in the clashes with the bluecoats. During one of the attacks on the strike breakers three of the non-union men were seriously hurt, and it was necessary for the police to make several arrests before the crowd could be dispersed.

Brutal Assault on Priest.

Sioux City, Ia., April 14.—Father Schell, a Catholic priest, who has been warring on alleged abuses of the Indians on the Omaha and Winnebago Indian agency in Nebraska, was seriously assaulted by a saloon keeper at Dakota City, Neb. He was brought to a hospital in Sioux City. His jaw is broken and other injuries are serious, but he is not fatally hurt.

Greeks Make Bloody Reprisals.

Salonica, April 14.—Later reports from Zagorikham, near Klissura, which was attacked by a Greek band on April 7 and burned, say that over 100 Bulgarians were killed, instead of thirty, as stated in earlier dispatches. The Greeks afterward executed thirty prisoners on the spot where the Greek leader Melas was killed last October.

Rudolph's Last Hope Gone.

Jefferson City, Mo., April 14.—At a conference between Governor Folk and the attorneys of Bill Rudolph, sentenced to be hanged next Monday at Union, Mo., for the murder of Detective Schumacher, the governor announced that he will not commute Rudolph's sentence to life imprisonment.

Slain While Resisting Arrest.

Oklahoma City, April 14.—Bailey Isbell, who was shot and killed near Hartshorn, I. T., while resisting arrest, was identified here as the man who killed Charles and William Fox over a land dispute near this city eight years ago. Isbell escaped from the jail here after his arrest.

Founded by Jefferson.

Charlottesville, Va., April 14.—In the eighteenth year of its career and on the anniversary of the birth of Thomas Jefferson, its illustrious founder, the University of Virginia yesterday inaugurated its first president, Dr. Edwin Anderson Alderman.

School Girl Killed by Train.

Plymouth, Ind., April 14.—Bertha Haag, the eight-year-old daughter of Mr. and Mrs. Daniel Haag of this city, met death while on her way home from school. She was struck by a switch engine on the Pennsylvania railroad and instantly killed.

The Mexican gold standard will go into effect without postponement on May 1.

DEMOCRATS GATHER

Jefferson Day Banquets at Chicago and New York.

Chicago, Ill., April 14.—Subjects of national significance to the Democratic party were discussed by prominent orators of the party at the Jefferson Club banquet, held at the Sherman house last night in commemoration of the birthday of Thomas Jefferson. The dinner, however, in a measure, resolved itself into a jollification over Mayor Edward F. Dunne, who is a director of the club, and was among the speakers who responded to toasts. All of the speakers in their discourses referred to municipal ownership and to Mayor Dunne's recent election on that platform.

The toastmaster of the evening was Howard S. Taylor, city prosecuting attorney. William Jennings Bryan and George Fred Williams of Massachusetts were the principal speakers. Mr. Bryan chose for his subject, "Thomas Jefferson" and his remarks were greeted with unstinted applause. Mr. Bryan took advantage of the occasion to congratulate Mayor Dunne on his recent election as chief executive of the city of Chicago.

Mr. Williams took for his theme, "Equal rights to all and special privileges to none." The speaker was accorded a warm welcome by the banquet. This was the first time many of those present had ever heard the Massachusetts orator, and his words were listened to with interest.

Mayor Dunne spoke on "Municipal Ownership." After a lengthy discussion of this subject Mayor Dunne ended his remarks by appealing to the Democratic party to incorporate a municipal ownership plank in the platform to be adopted at the next national convention of the party. Mayor Tom L. Johnson of Cleveland was the next speaker. Mr. Johnson also spoke on municipal ownership. He discussed the possibilities of municipal ownership from a traction expert's view. Among others who spoke during the evening were J. Hamilton Lewis and Clarence S. Darrow. Mr. Lewis spoke on "A Constitution to Fit the Institutions."

McDOUGALL KITCHEN CABINETS

TO BE HELD AT OUR STORE THROUGH-
OUT THE ENTIRE COMING WEEK

Every Lady visitor will be presented with a numbered coupon one of which secures the Cabinet,

The McDougall Kitchen Cabinet was the most attractive and interesting feature of the "Model Kitchen" at the St. Louis Exposition. The model used there by Mrs. Rorer will be on display, together with many others, offering a wide range of choice in the arrangement of bins, drawers and cupboards.

The McDougall Kitchen Cabinets are the result of the most painstaking study and experiment on the part of a large staff of competent artists, architects and skilled wood-workers. Domestic Science experts throughout the country give to them most unqualified approval. Every housewife will recognize at a glance their practical utility.

The McDougall Kitchen Cabinets

Are Destined to Revolutionize Housework
By the Introduction of System.

They offer a solution of the servant problem. They cut in half the time and strength now spent in cooking. No kitchen, however elaborate, is complete without one. No kitchen, however modest, but needs one. It is an indispensable article in every properly equipped kitchen. The Cabinets will be attractively dressed, as though in actual use, thus affording the most complete and pleasing exhibit of kitchen furniture ever yet attempted.

A copy of Mrs. S. T. Rorer's valuable book on "Kitchen Economy" will be given to each visitor.

BE SURE AND VISIT THIS INTERESTING EXHIBIT.

These are the Cabinets you have seen advertised in the leading women's magazines. They are distinctly different from anything you have ever seen, and so far superior to anything in the way of kitchen furniture heretofore devised that you can hardly realize from the description the hundreds of ways in which you could use one of them in your own home. You must see them for yourself to fully appreciate their wonderful advantages.

Knightstown.

The scene of the fire Monday was
viewed by hundreds of people. They
came from every direction, some of the
interurban cars being filled to their
utmost capacity. Sympathy was
expressed and assistance was offered
in a financial way. Mr. Williams
with his usual characteristic energy
has made partial arrangements to carry
on his business in the Kennard block
and will be ready as soon as circum-
stances will permit to wait on his
patrons again. Arrangements will be
made to rebuild as soon as possible in
a more substantial and up-to-date
manner than ever before. The origin
of the fire is still a mystery and prob-
ably always will be. Too much praise
cannot be given to the fire ladders for
the fight they made against the de-
vouring element. Handicapped by
low pressure at the start and the heat
being so intense that they could not
get near enough to throw water on
the buildings, they only abandoned
their positions to take up another one,
never hesitating an instant. To us
it seemed impossible to save any of
the entire block and it is to their
credit that it was done. The safes in
the buildings have been opened and
everything found intact.

There were light frosts here Wednes-
day and Thursday mornings, but not
enough to damage anything. Fruit
is all safe so far.

C. C. Barrett, of Indianapolis, for-
merly of this place, has moved to the
Holland house on Morgan street.

The largest acreage of oats that has
ever been seen in this vicinity is in

their howling and barking. From
the reports of firemen last night we
hope there are a few less this morning.

Wilson found it next day.

Farmer Committed Suicide.

Noblesville, Ind., April 14.—John
Yarling, aged sixty, committed suicide
by hanging himself in his barn. He
tied a rope to a rafter and jumped
out of the haymow. He was dead
when found by his children. He owned
400 acres of land, was not finan-
cially embarrassed, and had good
health. His family cannot assign any
cause for the deed.

Spreads to Indiana.

Laporte, Ind., April 14.—Laura

cerebro spinal meningitis after ten
weeks' illness, and Constantine Jaeger,
aged three years, is dead after four
days' sickness.

Hillsboro, Ind., April 14.—The pub-
lic schools have closed, the prevalence
of scarlet fever requiring the attend-
ance to a minimum.

IMPEDED JUSTICE

Such is the Charge on Which Beef
Trust Indictments Are Based.

Chicago, April 14.—Four men, three
of whom are employees of the Schwarz-
child & Sulzburger company and the
other an attorney for that corporation,
are named in an indictment returned
by the grand jury which is investigat-
ing the beef trust. It is charged that
the four men obstructed and impeded
Deputy Marshal A. A. Bach in his ef-
forts to serve a subpoena upon Edwin
B. Fish, a clerk employed by the
company, who recently returned from
Canada.

The men indicted are: Joseph
Weissenbach, attorney for Schwarz-
child & Sulzburger company; B. S.
Cusey, traffic manager for the com-
pany; George D. Hopkins, auditor for
the company; Leo S. Joseph, employ-
ed in the provision department of the
company. The indictment alleges that
a subpoena was issued for Fish on
March 3; that it was given to Bach
for service; that the four men had ar-
ranged for the departure of Fish from
this country to Canada and assisted
him in leaving the jurisdiction of the
court. The men were taken into cus-
tody shortly after the return of the
indictments, and were released in
bonds of \$1,000 in each case.

Taft Made Short Work of It.

Washington, April 14.—The Vene-
zuelan case is a closed incident so far
as Secretary Taft, who has charge of
foreign relations during the absence
of Secretary Hay, is concerned, unless
President Roosevelt decides to take it
up while he is away on his vacation.
This is not thought probable.

HOW TO KEEP CAKE FRESH.

Cortland 'De P. Field, of New
York, writes to the Scientific Ameri-
can as follows: "I have found that
fresh bread in slices about one inch
thick (renewed when it gets dry) of
bulk about half the cake to be kept
'fresh,' put in the tin with the
cake causes the cake to remain 'fresh.'"

APPLE PUDDING.

Peel and core four good sized apples;
slice and cook in barely enough water
to cover. Sweeten with half a cupful
of sugar, flavor with lemon. Thicken
with two tablespoonfuls of corn starch
and after a few minutes boiling pour
into a bowl or mold to cool. Eat with
cream and sugar.

A WASH DAY DINNER.

Good, cheap and easy to get. Out-
side of bread, butter and such relishes
as are usually on hand, the meat and
dessert need not cost over fifteen cents.
Hamburg soup is the meat course.
Get ten cents worth of Hamburger
sausage, work into it a half a slice
of crumbed bread and one finely minced
onion. Form in small dumplings, and
drop into three pints of boiling water
in the soup kettle. Put in also six
medium sized potatoes and a sliced
onion. When potatoes are done, the
soup is ready to season.

EASY METHOD OF WASHING.

There are almost as many methods
of washing as there are housekeepers.
In search for the easiest and quickest
method of doing a very large washing
and have it turn out well, the writer
has hit upon the following:

First of all, in a small agate kettle
chiefs for the purpose, the handker-
chiefs are put on the range to boil;
about half a cupful of the liquid soap
and two tablespoonfuls of ammonia
are added to a gallon of cold water;
these are brought slowly to the boiling
point at the back of the stove. Some
times this small task is done on Mon-
day with the flannels, the handker-
chiefs being rinsed in a small basin,
for every trace of soap must be removed
or the handkerchiefs will be yellow
after they are put away ironed. This
is true of all clothes, the secret of
white clothes lying in the repeated
rinsings.

The soiled clothes should be divided
in this way: Flannels, bed linen,
body clothing, table linen, handker-
chiefs, colored articles, stockings,
kitchen towels, cloths, etc., and by
thus sorting them one saves much con-
fusion and experiences the joy of doing
things properly.

All dish towels and kitchen cloths
are placed in a pail of cold water
with half a lemon and left to soak
until everything else has been boiled;
when they are turned into the boiler;
the lemon sweetens them wonderfully,
and if it is not at hand a tablespoonful
of kerosene is used instead, or a little
borax or ammonia.
